## CANASIL RESOURCES INC.

### NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

#### 1. NATURE AND CONTINUANCE OF OPERATIONS

Canasil Resources Inc. (“Canasil” or the “Company”) is a mineral exploration company incorporated in British Columbia with its head office located at 1760 – 750 West Pender Street, Vancouver, British Columbia. The Company is considered to be in the exploration stage with respect to its interests in mineral properties, which are located in Canada and Mexico. Based on the information available to date, the Company has not yet determined whether these properties contain ore reserves. The Company’s continuing operation is dependent upon the confirmation of reserves, the ability of the Company to obtain the financing necessary to maintain operations and successfully complete its exploration and development, and the attainment of future profitable production.

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations for the foreseeable future. As at June 30, 2020 the Company had working capital of \$525,699, which it considers to be insufficient to fund its overhead and currently planned exploration activities for the ensuing twelve months (*Note 10*). Consistent with other junior exploration companies, the Company has no source of operating revenue, is unable to self-finance operations, and has significant cash requirements to meet its overhead and maintain its mineral interests. These material uncertainties cast significant doubt upon the Company’s ability to continue as a going concern. The Company has incurred operating losses since inception and as at June 30, 2020 had an accumulated deficit of \$28,789,915.

These financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future. While the Company has been successful in the past at raising funds, there can be no assurance that it will be able to do so in the future. Additionally, the outbreak of the COVID-19 global pandemic has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

##### Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board as applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. These statements do not include all of the information and disclosures required by IFRS for annual financial statements. In the opinion of management, all adjustments and information considered necessary for fair presentation have been included in these financial statements.

These condensed interim consolidated financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements and should be read in conjunction with the Company’s audited consolidated financial statements including the notes thereto for the year ended December 31, 2019. All financial information presented herein is unaudited. The Company’s board of directors approved these financial statements for issue on August 25, 2020.

**2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION** - *continued*

**Basis of measurement**

These condensed interim consolidated financial statements have been prepared under the historical cost convention, except for those items classified as fair value through profit and loss or fair value through other comprehensive income, using the accrual basis of accounting, except for cash flow information.

**Principles of consolidation**

These condensed interim consolidated financial statements include the accounts of the Company and its significant wholly-owned subsidiaries, CRD Minerals Corp., Minera Canasil S.A. de C.V., and Minera CRD S.A. de C.V. All significant inter-company transactions, balances, and unrealized foreign exchange translation gains or losses have been eliminated.

**Foreign currency translation**

The presentation currency of the Company and the functional currency of the Company and its subsidiaries is the Canadian dollar. Transactions in currencies other than the functional currency are recorded at rates approximating those in effect at the time of the transactions. Monetary items are translated at the exchange rate in effect at the balance sheet date and non-monetary items are translated at historical exchange rates. Translation gains and losses are reflected in profit or loss for the period.

**3. MARKETABLE SECURITIES**

The Company acquired common shares of Orex Minerals Inc. ("Orex") through a private placement with, and subsequent reorganization of, Orex and which were not designated as held for trading. At the time of the acquisition of these shares, the Company had an option agreement with Orex on the Sandra-Escobar project (*Note 4*) and the shares were considered a strategic investment in the project. Upon adopting IFRS 9 on January 1, 2018, the Company elected to measure these shares at fair value through other comprehensive income.

In February 2019, the Company sold its remaining 700,000 shares of Orex for net proceeds of \$55,372 and a loss of \$14,584. In accordance with IFRS 9, gains realized upon sale remain in accumulated other comprehensive income and are not recognized in profit or loss. During the period ended June 30, 2019, the Company also recorded unrealized losses of \$628 through accumulated other comprehensive income.

**4. EXPLORATION AND EVALUATION**

The Company expenses costs relating to the exploration and evaluation of its mineral properties in the period incurred. A description of the Company's mineral interests follows:

**Sandra-Escobar project, Mexico**

Between 2004 and 2006, the Company acquired, by staking, the Sandra claims located in Durango State, Mexico. In accordance with a 2009 agreement with Pan American Silver Corp. ("Pan American"), the Company also earned a 40% interest in Pan American's Escobar claims in 2012, which are contiguous with the Sandra claims. In addition to these claims, the Company also acquired various other claims in the area from third parties, all of which formed the Sandra-Escobar project.

**4. EXPLORATION AND EVALUATION** - *continued***Sandra-Escobar project, Mexico** - *continued*

In September 2015, the Company signed an option agreement with Orex on the Sandra-Escobar project providing Orex with the right to earn up to an 65% interest in the project over a three-year period. Orex paid the Company \$500,000 and incurred US\$2,000,000 in exploration expenditures to earn a 55% interest in the project and declined its option to earn an additional 10% interest.

In June 2019, the Company sold its interest in the project to Pan American for \$2,000,000 plus a 2% net smelter returns royalty interest ("NSR Royalty Interest") payable on Pan American's share of the project; the NSR Royalty Interest can be reduced to 1% upon payment of \$4,000,000 to the Company.

**La Esperanza project, Mexico**

During 2006, the Company entered into an option agreement to earn a 100% interest in certain claims within the La Esperanza project area, subject to an NSR of up to 1%. The claims are located in Zacatecas State, Mexico. The Company acquired a 100% interest in these claims in May 2011 and purchased the NSR in 2016. From 2006 to 2010, the Company also added further claims, by direct staking, to increase the size of the project area.

**Salamandra project, Mexico**

The Salamandra project, located in Durango State, Mexico, was acquired through staking as well as the purchase of a 100% interest in certain claims comprising the central 900 hectares of the project area, subject to a 0.5% net smelter returns royalty that can be purchased from the owner for US\$500,000.

**Other projects**

The Company has staked other claims located in Durango State, Mexico, which include the Colibri, Carina, Vizcaino, and Nora projects. The Company has also staked and holds claims in British Columbia, Canada, which include the Brenda, Lil, Vega, and Granite projects. The Company holds a 100% interest in all of these projects.

**Mineral title**

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties is in good standing.

**5. SHARE CAPITAL**

The Company's authorized share capital consists of an unlimited number of voting common shares without par value.

In March 2020, the Company completed a non-brokered private placement by issuing 5,087,500 units at a price of \$0.08 per unit for gross proceeds of \$407,000. Each unit consisted of one common share and one share purchase warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.12 per share for a period of two years. The warrants are subject to an acceleration clause should the closing price of the Company's shares exceed \$0.25 per share for a period of 20 consecutive trading days. The Company paid finders' fees of \$3,720 on a portion of the placement as well as legal and filing fees of \$5,974.

**8. RIGHT-OF-USE ASSET AND LEASE LIABILITY**

The Company has a lease agreement for its office premises that expires September 30, 2021 and contains no renewal clause. Current monthly payments are \$3,879 and include basic rent and a pro rata share of common operating costs.

On January 1, 2019, the date of initial application under IFRS 16, the Company recorded this agreement as a lease liability with an initial measurement equal to the present value of the remaining lease payments using the Company's estimated incremental borrowing rate. The lease liability is subsequently measured at amortized cost using the effective interest rate method and adjusted for interest and principal. The right-of-use asset has been measured at an amount equal to the initial lease liability and is subsequently depreciated on a straight-line basis over the remaining term of the lease.

Details of the right-of-use asset for the period are as follows:

	2020	2019
Balance – beginning of period	\$ 69,742	\$ 109,594
Depreciation	(19,926)	(19,926)
